ARE YOU A MERITOCRAT?

Do you believe hard-work and talent should take you as far as possible and not who your parents were? Life is about you and what you do with it, not what your parents have done.

Are you sick and tired of nepotism, cronyism and the “who you know” versus “what you know” culture?

Do you believe Britain should deliver Equal Opportunity for Every Child to thrive and prosper to the greatest extent of their individual talent and ambition?

"Almost half of the world's wealth is now owned by just one percent of the population."
